TO SHOW GOD'S LOVE

WELCOME

What is an Adult Bible Study Fellowship?

It is a community of people just like you. People who desire friendship and reach out and help one another as they face life's challenges and celebrate life's blessings. Each community (Bible Study Fellowship) has its own unique characteristics. Some are smaller with few attendees while some are large with nearly one hundred attending. Teaching styles vary, but all teach with the firm conviction that the Bible is the authority and guide for meeting life's challenging issues, and that personal growth comes through exploring its truths and applying them to everyday life. In addition, an ABSF offers opportunities to develop enduring friendships in a relaxed environment; to be involved in fun meaningful activities; to help others and to be helped in the time of need; to participate in the global mission of sharing the Gospel.

Curriculum Information

Adult Bible Study Fellowships at College Church of the Nazarene lie at the heart of our church's Adult Christian Education program. Teachers and Fellowship leaders alike are considered invaluable resources in leading our adults toward Christlikeness.

Another vitally important resource includes the curriculum used within our adult classes. The Church of the Nazarene is a Holiness denomination with a unique calling. College Church has a trust to maintain doctrinal integrity in its teaching. The objective is to ground followers of Jesus Christ in the Wesleyan-Holiness perspective, to help students understand why we are Holiness people, and why we have chosen to support this Biblical mission. To help maintain this holiness trust, College Church of the Nazarene uses curriculum from the Wesleyan-Holiness point of view, thus we use WordAction material written and provided by the Nazarene Publishing House. There are times in the life of an ABSF when they may use the Dialogue Series also provided by NPH or when pre-approved by CCN's Sunday School Ministries Committee study another subject or book. For further information regarding the curriculum used by a specific Fellowship please call the teacher(s).
